

Monthly Indicators

May 2024

U.S. existing-home sales fell for the second month in a row, sliding 1.9% month-over-month and 1.9% year-over-year, according to the National Association of REALTORS® (NAR), with sales down in all four regions of the country. Higher borrowing costs and accelerating home prices continue to weigh on demand, pushing some prospective buyers to the sidelines and causing market activity to slump ahead of summer.

New Listings were up 6.5 percent for single family homes and 22.5 percent for Condo/TIC/Coop properties. Pending Sales increased 15.3 percent for single family homes and 23.2 percent for Condo/TIC/Coop properties.

The Median Sales Price was up 1.8 percent to \$1,680,000 for single family homes and 8.2 percent to \$1,150,000 for Condo/TIC/Coop properties. Months Supply of Inventory decreased 9.5 percent for single family units but was up 12.5 percent for Condo/TIC/Coop units.

Home prices have continued to climb nationwide, despite an uptick in inventory this year. Nationally, the median existing-home price reached \$407,600 as of last measure, a 5.7% increase from the same period last year and a record high for the month, according to NAR. Meanwhile, total inventory heading into May stood at 1.21 million units, a 9% increase month-over-month and a 16.3% increase year-over-year, for a 3.5 month's supply at the current sales pace.

Housing Affordability Ratio

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

May

Year to Date
